PLAY SYSTEMS

PLAY SYSTEM 1

Child Capacity :
3 Children

Length : 15ft
Width : 10ft
Height : 9ft

Age group :
3 to 8 yrs

Area required :
18ft x 10ft

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

Features:
• Non -toxic
• Weather proof
• Attractive
• Colorful
• Durable
• Elegance look
• Completely safe

PLAY SYSTEM 1A

Child Capacity :
3 Children

Length : 18ft
Width : 15ft
Height : 9ft

Age group :
3 to 8 yrs

Area required :
22ft x 18ft

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

Features:
• Non -toxic
• Weather proof
• Attractive
• Colorful
• Durable
• Elegance look
• Completely safe

PLAY SYSTEM 2

Child Capacity :
5 Children

Length : 15ft
Width : 16ft
Height : 9ft

Age group :
3 to 10 yrs

Area required :
18ft x 18ft

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

Features:
• Non -toxic
• Weather proof
• Attractive
• Colorful
• Durable
• Elegance look
• Completely safe

PLAY SYSTEM 2A

Child Capacity :
5 Children

Length : 16ft
Width : 16ft
Height : 11ft

Age group :
3 to 10 yrs

Area required :
18ft x 18ft

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

Features:
• Non -toxic
• Weather proof
• Attractive
• Colorful
• Durable
• Elegance look
• Completely safe

PLAY SYSTEMS

PLAY SYSTEM 2B

Child Capacity : 5 Children	Length : 18ft Width : 15ft Height : 10ft	Age group : 3 to 10 yrs	Area required : 22ft x 18ft
--------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 3

Child Capacity : 5 Children	Length : 16ft Width : 16ft Height : 9ft	Age group : 3 to 10 yrs	Area required : 18ft x 18ft
--------------------------------	---	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 3A

Child Capacity : 7 Children	Length : 20ft Width : 20ft Height : 9ft	Age group : 3 to 10 yrs	Area required: 20ft x 20ft
--------------------------------	---	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 3B

Child Capacity : 5 Children	Length : 16ft Width : 12ft Height : 11ft	Age group : 3 to 10 yrs	Area required: 20ft x 14ft
--------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 3C

Child Capacity : 6 Children	Length : 14ft Width : 10ft Height : 10ft	Age group : 3 to 10 yrs	Area required : 18ft x 12ft
--------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used.(No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 4

Child Capacity : 5 Children	Length : 18ft Width : 15ft Height : 13ft	Age group : 3 to 12 yrs	Area required : 22ft x 18ft
--------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used.(No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 4A

Child Capacity : 12 Children	Length : 22ft Width : 22ft Height : 10ft	Age group : 3 to 10 yrs	Area required : 25ft x 25ft
---------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used.(No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 5

Child Capacity : 6 Children	Length : 18ft Width : 18ft Height : 10ft	Age group : 3 to 10 yrs	Area required : 20ft x 20ft
--------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used.(No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 5A

Child Capacity : 10 Children	Length : 28ft Width : 22ft Height : 10ft	Age group : 3 to 12 yrs	Area required : 30ft x 24ft
---------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used.(No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 6

Child Capacity : 10 Children	Length : 30ft Width : 30ft Height : 10ft	Age group : 3 to 10 yrs
---------------------------------	--	----------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used.(No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 7

Child Capacity : 12 Children	Length : 26ft Width : 14ft Height : 12ft	Age group : 3 to 10 yrs	Area required : 30ft x 16ft
---------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used.(No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 8

Child Capacity : 10 Children	Length : 32ft Width : 18ft Height : 10ft	Age group : 3 to 10 yrs	Area required : 34ft x 20ft
---------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used.(No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 9

Child Capacity : 10 Children	Length : 32ft Width : 25ft Height : 11ft	Age group : 3 to 10 yrs	Area required : 36ft x 30ft
---------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 10

Child Capacity : 12 Children	Length : 26ft Width : 18ft Height : 12ft	Age group : 3 to 10 yrs	Area required: 30ft x 24ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 10A

Child Capacity : 12 Children	Length : 30ft Width : 19ft Height : 12ft	Age group : 3 to 10 yrs	Area required: 35ft x 25ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 10B

Child Capacity : 12 Children	Length : 30ft Width : 19ft Height : 12ft	Age group : 3 to 10 yrs	Area required: 35ft x 25ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 11

Child Capacity :	Length : 28ft	Age group :	Area required :
15 Children	Width : 15ft	3 to 10 yrs	35ft x 25ft
	Height : 12ft		

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 12

Child Capacity :	Length : 29ft	Age group :	Area required :
12 Children	Width : 26ft	3 to 12 yrs	35ft x 30ft
	Height : 9ft		

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 13

Child Capacity :	Length : 55ft	Age group :	Area required :
20 Children	Width : 29ft	3 to 12 yrs	60ft x 32ft
	Height : 10ft		

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 14

Child Capacity :	Length : 26ft	Age group :	Area required :
12 Children	Width : 15ft	3 to 12 yrs	28ft x 18ft
	Height : 11ft		

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 15

Child Capacity : 20 Children	Length : 30ft Width : 24ft Height : 9ft	Age group : 3 to 10 yrs	Area required: 35ft x 28ft
---------------------------------	---	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 16

Child Capacity : 12 Children	Length : 34ft Width : 25ft Height : 9ft	Age group : 3 to 10 yrs	Area required: 36ft x 28ft
---------------------------------	---	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 17

Child Capacity : 15 Children	Length : 55ft Width : 34ft Height : 8ft	Age group : 3 to 10 yrs	Area required: 60ft x 36ft
---------------------------------	---	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 18

Child Capacity : 15 Children	Length : 34ft Width : 34ft Height : 10ft	Age group : 3 to 10 yrs	Area required: 36ft x 36ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 19

Child Capacity : 35 Children	Length : 68ft Width : 34ft Height : 10ft	Age group : 3 to 10 yrs	Area required: 70ft x 38ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 20

Child Capacity : 25 Children	Length : 62ft Width : 38ft Height : 11ft	Age group : 3 to 10 yrs	Area required: 65ft x 40ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 21

Child Capacity : 20 Children	Length : 27ft Width : 22ft Height : 14ft	Age group : 3 to 10 yrs	Area required: 34ft x 26ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 22

Child Capacity : 8 Children	Length : 19ft Width : 23ft Height : 9ft	Age group : 3 to 10 yrs	Area required: 23ft x 26ft
--------------------------------	---	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 23

Child Capacity : 12 Children	Length : 31ft Width : 35ft Height : 9ft	Age group : 3 to 10 yrs	Area required: 33ft x 38ft
---------------------------------	---	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic

PLAY SYSTEMS

ADVENTURE CLIMBER

Code : PS 043

Child Capacity :
60 Children

Length : 30ft
Width : 26ft
Height : 9ft

Age group :
3 to 10 yrs

Area required:
36ft x 30ft

Specification:

High density polyurethane (HDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
No Platform Design / Side posts 114mm OD

Features:

- Non -toxic
- Weather proof
- Attractive
- Colorful
- Durable
- Elegance look
- Completely safe

PLAY SYSTEM 27

Code : PS 044

Child Capacity :
15Children

Length : 30ft
Width : 15ft
Height : 10ft

Age group :
3 to 12 yrs

Area required :
33ft x 18ft

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

Features:

- Non -toxic
- Weather proof
- Attractive
- Colorful
- Durable
- Elegance look
- Completely safe

PLAY SYSTEM 28

Child Capacity :
50 Children

Length : 38ft
Width : 32ft
Height : 16ft

Age group :
3 to 12yrs

Area required :
42ft x 35ft

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

Features:

- Non -toxic
- Weather proof
- Attractive
- Colorful
- Durable
- Elegance look
- Completely safe

PLAY SYSTEM 29

Child Capacity :
40 Children

Length : 38ft
Width : 26ft
Height : 22ft

Age group :
3 to 10 yrs

Area required:
45ft x 30ft

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

Features:

- Non -toxic
- Weather proof
- Attractive
- Colorful
- Durable
- Elegance look
- Completely safe

PLAY SYSTEMS

PLAY SYSTEM 30

Code : PS 047

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 35

Child Capacity : 60 Children	Length : 29ft Width : 19ft Height : 12ft	Age group : 3 to 10 yrs	Area required: 34ft x 23ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

GALAXY SERIES

Child Capacity : 20 Children	Length : 28ft Width : 18ft Height : 10ft	Age group : 3 to 10 yrs	Area required: 33ft x 20ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 36

Child Capacity : 10 Children	Length : 41ft Width : 20ft Height : 12ft	Age group : 3 to 10 yrs	Area required: 44ft x 24ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 37

Child Capacity : 10 Children	Length :20ft Width : 20ft Height : 14ft	Age group : 3 to 12 yrs	Area required : 25ft x 25ft
---------------------------------	---	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 38

Child Capacity : 12 Children	Length : 35ft Width : 35ft Height : 13ft	Age group : 3 to 10 yrs	Area required: 40ft x 40ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 39

Child Capacity : 14Children	Length : 27ft Width : 16ft Height : 13ft	Age group : 3 to 12yrs	Area required : 30ft x 20ft
--------------------------------	--	---------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 40

Child Capacity : 12 Children	Length : 32ft Width : 34ft Height : 18ft	Age group : 3 to 10 yrs	Area required: 36ft x 38ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

ACTIVATE SERIES

Child Capacity : 80 Children	Length : 42ft Width : 26ft Height : 23ft	Age group : 3 to 10 yrs	Area required: 46ft x 30ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

High density polyurethane (HDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 41

Child Capacity : 60 Children	Length : 50ft Width : 38ft Height : 20ft	Age group : 3 to 10 yrs	Area required: 60ft x 45ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated.
Platform size : 115*115*5cm/ Side posts 114mm OD

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 42

Child Capacity : 60 Children	Length : 35ft Width : 34ft Height : 20ft	Age group : 3 to 10 yrs	Area required: 40ft x 38ft
---------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEM 43

Child Capacity : 70 Children	Length : 45ft Width : 39ft Height : 18ft	Age group : 3 to 15 yrs	Area required : 50ft x 42ft
---------------------------------	--	----------------------------	--------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)
No Peeling / Rusting. No Sharp edges.
Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD
Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

- Features:
- Non -toxic
 - Weather proof
 - Attractive
 - Colorful
 - Durable
 - Elegance look
 - Completely safe

PLAY SYSTEMS

PLAY SYSTEM 44

Child Capacity : 100 Children	Length : 88ft Width : 55ft Height : 18ft	Age group : 3 to 10 yrs	Area required: 95ft x 60ft
----------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)

No Peeling / Rusting. No Sharp edges.

Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD

Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

Features:

- Non -toxic
- Weather proof
- Attractive
- Colorful
- Durable
- Elegance look
- Completely safe

PLAY SYSTEM 45

Child Capacity : 120 Children	Length : 88ft Width : 55ft Height : 19ft	Age group : 3 to 10 yrs	Area required: 95ft x 65ft
----------------------------------	--	----------------------------	-------------------------------

Specification:

Linear low density polyurethane (LLDPE) virgin plastic will be used. (No FRP used)

No Peeling / Rusting. No Sharp edges.

Metal Structure fully Powder coated. Platform size 4ft x 4ft. Side posts 114mm OD

Swings: Rubber seats, Aluminum clamps with bearing setting, S.S chains.

Features:

- Non -toxic
- Weather proof
- Attractive
- Colorful
- Durable
- Elegance look
- Completely safe

Product warranty:

Aluminium clamp, locks & s.s fastners - 5years

Metal parts (main posts, side grill, metal climbers, sheet step ladders & platforms) - 2 years

Polyethylene parts (slides, panels, seats, climbers, roofs, steps, etc) - 2 years

Swing chain, all kinds of bearings & powder coating - 1 year
